

BACHELOR OF EDUCATION IN PRE AND PRIMARY EDUCATION

Get started for a successful teaching career
with our Online Master's Program

Degree awarded by international
universities

Overview

Bachelor of Education in Pre and Primary Education is one of the popular courses that includes core areas of child development and curriculum planning for different stages, including activities that aid emotional, social, motor skills and language development. The B.Ed. program imparts training to evaluate a child's interests during the development phase, because preschool is often a child's first exposure to the sciences, creative arts, writing and music. Trainees will also get to explore psychology and nutrition while developing curriculum designing skills and gain knowledge in teaching reading techniques in order to keep the children focused. They will learn to expand children's imagination and acquaint them with unique learning concepts. The program also covers classroom lectures and student-teaching experiences.

Examine key points such as

Fundamental areas of Education like communication strategies, critical thinking and research skills

Varied instructional methods and measurement, assessment and evaluation in Education

Educational Technology and the role technology plays in today's learning and teaching arena

Understand the concept of children's right to learn and tap their full potential and also get through the knowledge on Psychology of Learning

Issues and Trends in Special Education with an introduction to Counselling

Pre and Primary Curriculum Framework & Planning with a focus on Assessment and Classroom Management
