

Bachelor of Education in Primary and Secondary Education

B.Ed. in Primary and Secondary Education course focuses on teaching learners of different age levels

The degree will be awarded by a prestigious international university

Overview

With a focus on 21st century learning and teaching strategies, the B.Ed. in Primary & Secondary Education, offered by Asian College of Teachers (ACT) affiliated to an esteemed international university, brings theory in a way that will give you powerful insights into the characteristics of young individuals and their learning which can be applied in global classrooms. The trainees will develop the professional skills needed to foster the learning of students of various ages and diverse needs and will help trainees become effective educators.

This program includes core principles and theories of primary and secondary education. Students learn to engage learners with activities according to the individual needs of the learners. The B.Ed. program also teaches students to evaluate a learner's interests and resort to teaching and learning process that is appropriate for different age groups. Our trainees will explore child psychology and develop curriculum-writing skills, and gain knowledge of different teaching methods in order to keep the children focused.

Examine key points such as:

1

Position and principles of two disciplines - Primary and Secondary Education

2

Theories of Learning and Child Psychology in Education

3

Curriculum framework, planning and designing for primary and secondary learners

4

Varied methods of learning and teaching in primary and secondary classrooms

5

Purposes, principles and scope of assessment for different types of learners

6

Transition from the primary level to secondary level and how to integrate technology in classrooms
