

Master of Arts in Education with Curriculum and Instructional Design

*"Education is not the filling of a pail,
but the lighting of a fire."*

William Butler Yeats

OVERVIEW

The Online Master of Arts in Education with Curriculum and Instructional Design offered by Asian College of Teachers (ACT) in academic collaboration with European International University, EIU - Paris is a comprehensive program designed to meet the increasing demand for skilled instructional designers. It provides a solid foundation in education with a deep focus on curriculum and instructional design. You will start with the history of curriculum and instructional design and learn about various instructional design models like Bloom's Taxonomy, Assure, Gagne, Hunter, and Merrill, which help in effective designing of instructions to achieve learning goals. The specialization also covers instructional design theories and their practical application, considering factors like school environment, learning disabilities, cultural diversity, and exceptional learners. Additionally, you will also explore educational psychology, including cognitive, socio-cultural, and emotional aspects of learning. This advanced degree will enhance your employability and widen diverse career paths in the education and teaching industry.

Examine key points such as:

Taking a deeper look into the history, types and function of curriculum and instructional design

1

Understanding and application of various instructional design models and learning theories

2

Gaining valuable insights into educational psychology with a focus on cognitive, sociocultural and emotional psychology

4

Recognising the unique talents and challenges of each student as individuals and how curriculum impacts student learning

3
